SUMMARY

Highly motivated and results-oriented Full-Stack Java Developer with 3+ years of experience seeking a Python Developer II position. Proven ability to develop and maintain software, leveraging object-oriented programming principles in Java and contributing to a team environment. Experience with scalable data application design and a strong desire to learn and implement new technologies in the cloud, including AWS services. Eager to contribute to the optimization and continuous improvement of software development processes and work closely with junior team members, providing constructive feedback.

EDUCATION

Saint Louis University

Master of Science, Information Systems

- CGPA: 3.63/4.0
- Coursework: Mobile & Web App Development, Data Visualization & Analysis, AWS, Statistics, Tech & Start-ups

Saint Louis, Missouri

Aug 2023 – May 2025

EXPERIENCE

Cognizant Technology Solutions — Titan

Full-Stack Java Developer

- Developed and maintained key features for a large-scale Java application, resulting in a 15% increase in user engagement.
- Improved application performance by 20% through code optimization and database tuning.
- Collaborated with cross-functional teams to deliver projects on time and within budget.
- Successfully implemented a new microservice architecture, improving scalability and maintainability.

Hyderabad

Aug 2020 – Jul 2023

Cognizant Technology Solutions

Intern – Programmer Analyst

- i am a good boy

Pune, Maharastra

Jan 2020 – May 2020

PROJECTS

boy

- hello world
- Implemented REST APIs for efficient data exchange between microservices.
- Utilized PostgreSQL database for data storage and retrieval.

man

E-commerce Platform Development

- Developed a scalable e-commerce platform using Python and Django framework.
- Implemented a robust payment gateway integration using secure APIs.
- Improved site performance by 30% through code optimization and caching strategies.

Oct 2021 - Apr 2022

Data Analytics Dashboard

- Created a data analytics dashboard using Python, Pandas, and NumPy to visualize key business metrics.
- Integrated with AWS cloud services for data storage and processing.
- Implemented interactive visualizations and reports to provide actionable insights to stakeholders.

Jun 2022 - Dec 2022

SKILLS

Languages & Frameworks: Java, C, C++, Spring Boot, Hibernate, Angular2/4/8, React, Node.js, JSP, Servlets, MVC

Frontend: HTML5, CSS3, JavaScript, jQuery, JSON, XML, XSLT

Web Services: REST, SOAP

Cloud & DevOps: AWS, Azure, Docker, Google cloud,

Tools: Jira, Confluence, GitHub, GitLab, Postman, Elasticsearch

Database: MySQL

Messaging Queues: ActiveMQ, RabbitMQ

Security: OAuth2, JWT, Spring Security

CERTIFICATIONS (UDEMY)

- Agile Project Management
- Relational Database Design
- Responsive Web Design
- Java Database Connection
- Maven Crash Course
- Spring Framework
- Build Java app with Spring MVC
