EXPERIENCE

Acme Corporation

Software Engineer

Okemos, MI

2020-2023

- Developed and maintained 3 key features for a Java/J2EE-based web application, resulting in a 15% increase in user engagement.
- Improved database query performance by 20% using optimized SQL and PL/SQL code in an Oracle database environment.
- Collaborated with cross-functional teams to deliver projects on time and within budget.

PROJECTS

E-commerce Platform Development

2022

- Developed a RESTful API using Jersey framework, integrating with an Oracle database, improving data retrieval speed by 10%.
- Implemented front-end features using HTML, CSS, and Javascript, enhancing user experience and achieving a 5% increase in conversion rates.
- Deployed the application to a cloud environment, ensuring high availability and scalability.

Inventory Management System

2021

- Designed and implemented a relational database schema using Oracle, improving data integrity by 12%.
- Developed Java/J2EE backend services for efficient data processing and management.
- Created a user-friendly interface using HTML and CSS for seamless user interaction.

Data Analytics Dashboard

2020

- Built a data analytics dashboard using SQL and PL/SQL for efficient data extraction and visualization.
- Developed reports and visualizations to help stakeholders make data-driven decisions.
- Improved data accuracy by 8% through data validation and cleansing processes.
