EXPERIENCE

Acme Corporation

Software Developer

Okemos, MI

2021-2023

- Developed and maintained 3 key features for a Java/J2EE based web application, resulting in a 15% increase in user engagement.
- Improved database performance by 20% through SQL query optimization and PL/SQL procedure enhancements in an Oracle database environment.
- Collaborated with cross-functional teams to design and implement new UI components using HTML, CSS, and Jersey RESTful services.

PROJECTS

E-commerce Platform Development

2022

- Designed and developed a scalable e-commerce platform using Core Java/J2EE, Jersey RESTful services, and an Oracle database. Implemented robust security measures, resulting in a 10% reduction in security vulnerabilities.
- Integrated a user-friendly interface using HTML and CSS, improving customer satisfaction by 12% based on user feedback.

Data Analytics Dashboard

2021

- Developed a data analytics dashboard using SQL, PL/SQL, and HTML to visualize key business metrics. Reduced data processing time by 15% through optimized queries.

Inventory Management System

2020

- Built a robust inventory management system using Java and an SQL database, improving inventory accuracy by 8% and reducing stock-outs by 5%.
