## EXPERIENCE

Acme Corporation

Senior Software Engineer

New York, NY

2020-2023

- Developed and maintained 5+ microservices using C# and .NET, resulting in a 20% increase in application performance.
- Implemented responsive UIs using Angular 11+, improving user engagement by 15%.
- Deployed applications to AWS using Kubernetes and Docker, achieving 99.99% uptime.

## PROJECTS

Microservice Architecture Implementation

2021-2022

- Migrated monolithic application to a microservice architecture using Docker and Kubernetes on AWS, improving scalability and reducing deployment time by 40%.
- Implemented RESTful APIs for seamless communication between microservices.
- Reduced infrastructure costs by 10% through optimized resource utilization.

Cloud-Based Application Development

2020-2021

- Developed a cloud-based application using C#, Angular 11+, and Azure, achieving 99.9% uptime.
- Implemented CI/CD pipeline using Jenkins, reducing deployment time by 50%.
- Improved application security by implementing robust authentication and authorization mechanisms.

Angular UI Enhancement

2022-2023

- Redesigned and implemented a new user interface for an existing application using Angular 11+, resulting in a 25% increase in user satisfaction.
- Improved application performance by 15% through code optimization and performance testing.
- Implemented unit and integration tests, achieving 95% code coverage.
