SUMMARY

Highly motivated and enthusiastic Junior Full Stack Developer with 2+ years of experience in Java/J2EE development seeking a challenging role at Datamasis. Proven ability to design, develop, and implement robust and scalable web applications using Core Java, HTML/CSS, Jersey, and SQL/PLSQL with Oracle databases. Adept at collaborating effectively within teams and proactively seeking solutions. Eager to leverage skills in a hybrid work environment.

EDUCATION

Saint Louis University

Master of Science, Information Systems

Saint Louis, Missouri

Aug 2023 – May 2025

- CGPA: 3.63/4.0
- Coursework: Mobile & Web App Development, Data Visualization & Analysis, AWS, Statistics, Tech & Start-ups

EXPERIENCE

Cognizant Technology Solutions — Titan

Full-Stack Java Developer

Hyderabad

Aug 2020 – Jul 2023

- Developed and maintained full-stack Java applications using Core Java, J2EE, and related technologies.
- Designed and implemented RESTful APIs using Jersey framework.
- Utilized SQL and PL/SQL for database interactions with Oracle databases.
- Collaborated with cross-functional teams to deliver high-quality software solutions.

Cognizant Technology Solutions

Intern – Programmer Analyst

Pune, Maharashtra

Jan 2020 – May 2020

- Gained hands-on experience in Java programming and software development life cycle.
- Contributed to the development of internal tools and applications.
- Assisted senior developers in various aspects of software development.

PROJECTS

E-commerce Platform Development

Jan 2022 - Jun 2022

- Developed a robust and scalable e-commerce platform using Java, Spring Boot, and MySQL.
- Implemented RESTful APIs for product catalog, shopping cart, and order management.
- Integrated with payment gateways and shipping providers.

Inventory Management System

Oct 2021 - Dec 2021

- Designed and implemented an inventory management system using Java, Spring MVC, and Oracle Database.
- Developed user interfaces using HTML, CSS, and JavaScript.
- Improved inventory tracking accuracy and efficiency.

Internal Tool for Data Analysis

Mar 2023 - May 2023

- Developed an internal tool using Java, Jersey, and Oracle for data analysis and reporting.
- Utilized SQL and PL/SQL for data extraction and manipulation.
- Improved data analysis efficiency and reduced manual effort by 30%.

SKILLS

Languages & Frameworks: Java, C, C++, Spring Boot, Hibernate, Angular2/4/8, React, Node.js, JSP, Servlets, MVC

Frontend: HTML5, CSS3, JavaScript, jQuery, JSON, XML, XSLT

Web Services: REST, SOAP

Cloud & DevOps: AWS, Azure, Docker, Google cloud,

Tools: Jira, Confluence, GitHub, GitLab, Postman, Elasticsearch

CERTIFICATIONS (UDEMY)

- Agile Project Management
- Relational Database Design
- Responsive Web Design
