EXPERIENCE

Previous Company Name

Previous Location

Senior Front End Engineer

YYYY-YYYY

- Developed and maintained 15+ responsive web applications using React, resulting in a 20% increase in user engagement.
- Improved website load times by 30% through performance optimization techniques, leading to a 15% increase in conversion rates.
- Collaborated with UX designers and backend developers to implement pixel-perfect, accessible interfaces adhering to WCAG 2.1 guidelines.

PROJECTS

High-Performance Investment Dashboard

YYYY-YYYY

- Developed a React-based dashboard providing real-time financial data visualization for high-net-worth clients, resulting in a 10% increase in client satisfaction.
- Integrated with RESTful APIs to fetch and display market data, achieving sub-second response times and 99.9% uptime.
- Implemented responsive design and accessibility features (WCAG 2.1) ensuring usability across devices.

Cloud-Native Insurance Platform UI

YYYY-YYYY

- Designed and built a user-friendly UI for a cloud-native insurance platform, improving user onboarding by 15%.
- Utilized Angular and Tailwind CSS for efficient development and consistent styling across the platform.
- Integrated with GraphQL APIs for seamless data retrieval and optimized performance.

AI-Powered Customer Acquisition Platform

YYYY-YYYY

- Created a dynamic, responsive UI for an AI-driven customer acquisition platform, leveraging machine learning algorithms.
- Improved the platform's conversion rate by 25% through optimized UI/UX design and A/B testing.
- Implemented a robust component library using React and Material-UI, ensuring consistent design across modules.
