SUMMARY

Highly motivated and results-oriented Full-Stack Java Developer with 3+ years of experience seeking a Python Developer II position. Proven ability to develop and maintain software, leveraging object-oriented programming principles in Java. Eager to apply expertise in scalable data application design and cloud technologies (AWS) to contribute to a dynamic team focused on continuous improvement and innovation. Experience working with REST APIs and databases (PostgreSQL, MSSQL) complements my desire to contribute to the optimization and enhancement of existing systems.
