Hiring Manager
FinconsUS
Downtown Los Angeles, CA

Subject: Application for Full-Stack Java/Node.js Engineer

Dear Hiring Manager,

I am writing to express my keen interest in the Full-Stack Java/Node.js Engineer position at FinconsUS, as advertised. My experience in developing and optimizing scalable applications, coupled with my proficiency in Java, Node.js, and modern front-end frameworks, aligns strongly with the requirements outlined in the job description.

My background includes two years of experience at Cognizant Technology Solutions, where I honed my full-stack development skills, and significantly improved API response times by 15

Beyond my professional experience, my personal projects showcase my ability to deliver high-performance solutions. My "Scalable E-commerce Platform using Java and React" project, for instance, supports 10,000 concurrent users with an average response time under 200ms. This project also achieved a 30

These achievements demonstrate my expertise in Java, Node.js, RESTful API design, microservices, SQL and NoSQL databases, and my commitment to building high-performance, scalable applications. My proficiency in these areas directly addresses FinconsUS's need for a skilled full-stack engineer. I am confident I can make a significant contribution to your team and am eager to discuss my qualifications further. My resume provides further details on my experience and skills.

Sincerely,

Yashwanth Raj Tirupati
