EXPERIENCE

sdjhfasdhf   **sdkjahfsdhf**

Senior Software Developer   *3874sdfh*

- Developed and maintained 3 key features for a flagship product, resulting in a 15% increase in user engagement.
- Led a team of 5 developers in the migration of a legacy system to a cloud-based architecture, reducing infrastructure costs by 20%.
- Designed and implemented 5 new APIs, improving system scalability and reducing latency by 30%.

PROJECTS

Enterprise Logistics Platform   *2021-2023*

- Developed a scalable Django-based platform for a Fortune 500 logistics company, handling 100M+ transactions annually.
- Integrated Power BI dashboards for real-time performance monitoring and data-driven decision-making.
- Utilized Azure cloud services for high availability and disaster recovery, ensuring 99.9% uptime.

FinTech Transaction Processing System   *2019-2021*

- Built a high-throughput Flask application for processing financial transactions, achieving a 99.99% success rate.
- Implemented robust security measures to protect sensitive data, exceeding industry compliance standards.
- Improved system performance by 40% through code optimization and database tuning.

Insurance Claims Processing System   *2017-2019*

- Designed and developed a new API for processing insurance claims, reducing processing time by 25%.
- Created PowerApps solution for streamlined user interaction and claim submission.
- Integrated the system with existing legacy systems, ensuring seamless data exchange.
